

# Constitution and Mission Statement

Registered Charity 1052731

## Constitution

 The relief of sickness both physical and mental, incorporating traditional and holistic or complementary methods, and to make treatments available for all patients in need of curative or preventative methodologies.

 To undertake research into the integration of Allopathic (Traditional) and Naturopathic (Holistic or Complementary) medical methodologies, and to develop educational programmes and related activities for the benefit of the public at large.

 In furtherance of the above, to establish hospitals, clinics, centres and other medical institutions that will further these objectives.

## Mission Statement

1. To teach **Bioregulatory Medicine** and to promote the importance of **Preventative and Regenerative Medicine** worldwide.
2. To help **democratise medicine** by teaching a **patient-centred medical approach**.
3. To **introduce a health-centred therapeutic approach** into allopathic medicine.
4. To teach **medical doctors** how to use **bioregulatory methodologies** both in **curative treatment and in medically guided prevention**.
5. To introduce **medical protocol for stress-release** into medical curricula.

6. To establish **Bioregulatory Medicine as a legitimate speciality** in medical schools.
7. To help **increase health consciousness of the general public**.
8. To further **develop, research and teach the bioregulatory medical paradigm**
9. To raise funds necessary to provide **free bioregulatory treatments** for the general public, available at point of need.
